

Custom folders as unique as your business.

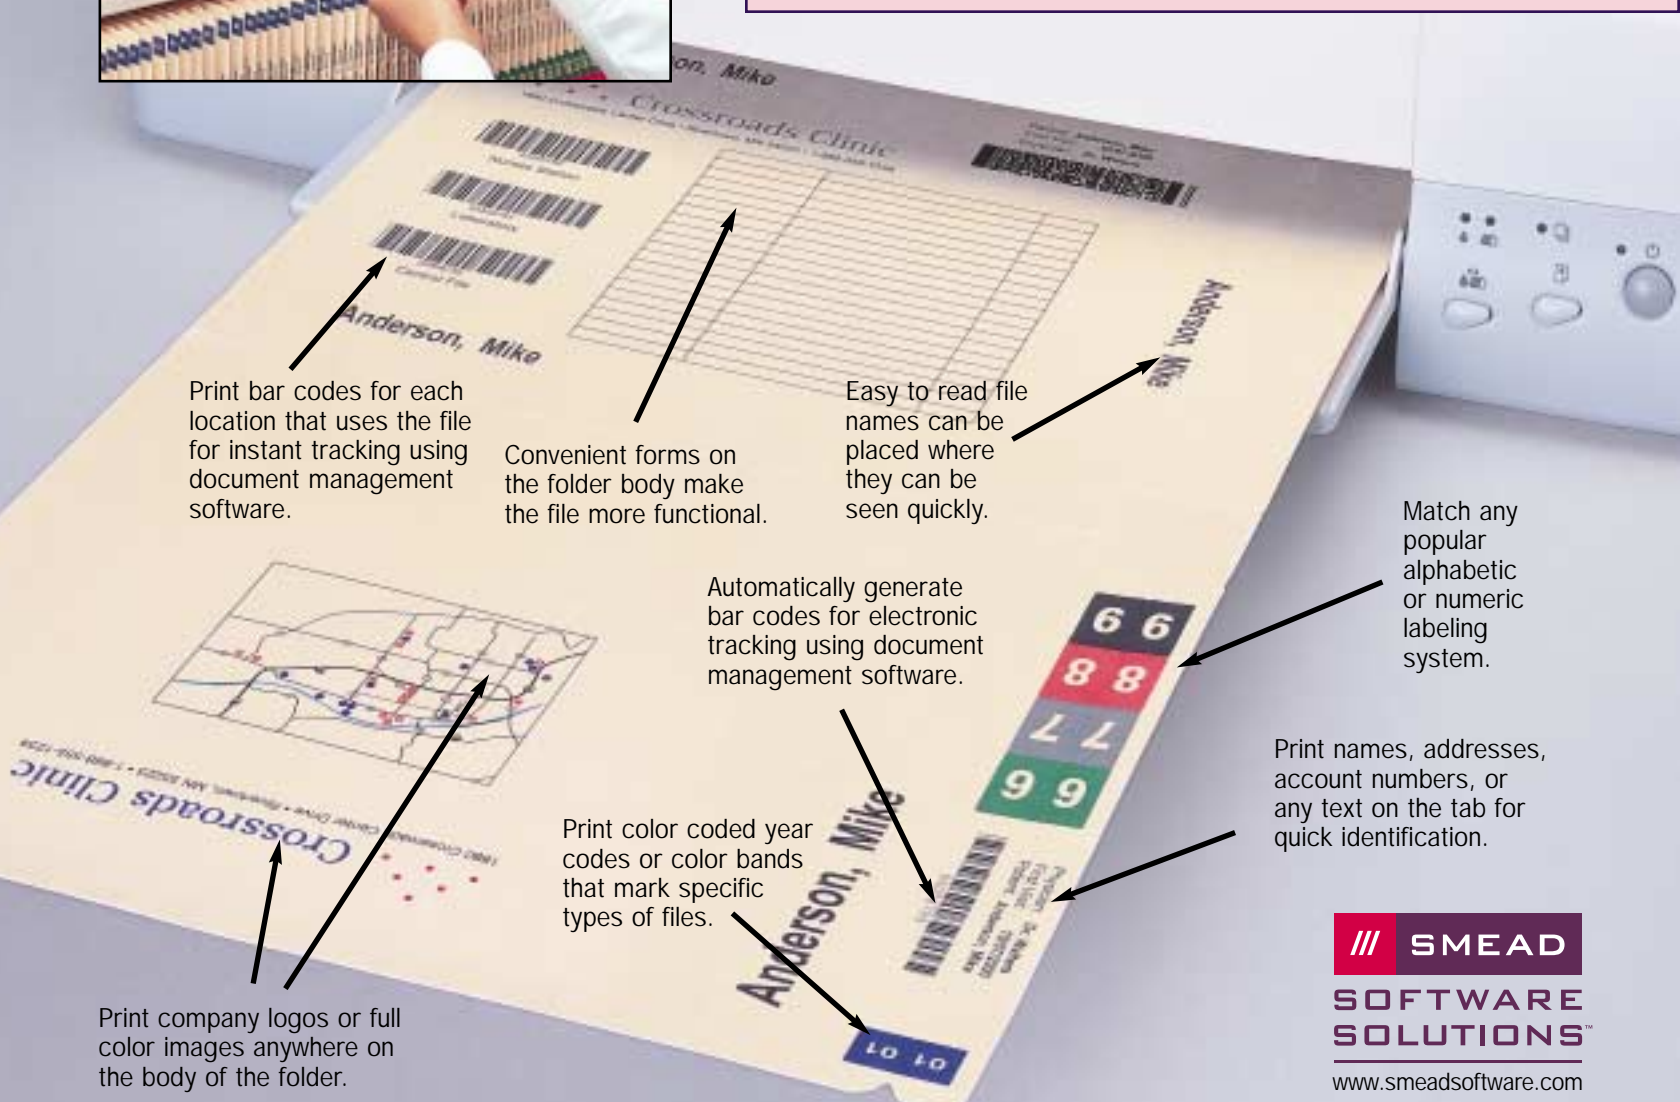

Now you can print customized file folders from your PC.

New ColorBar® ClickFile™ Software prints color coded indexing, text, bar codes, graphics and full color images directly onto ColorBar® Printable Folders using your desktop color printer. Simply enter your folder information and click to print.

No labels to apply. Individual custom folder printing. Perfect for:

- Clinics ● Dental Offices ● Veterinarians ● Real Estate Offices
- Any business that benefits from printing on an entire file folder.

Print bar codes for each location that uses the file for instant tracking using document management software.

Convenient forms on the folder body make the file more functional.

Easy to read file names can be placed where they can be seen quickly.

Match any popular alphabetic or numeric labeling system.

Automatically generate bar codes for electronic tracking using document management software.

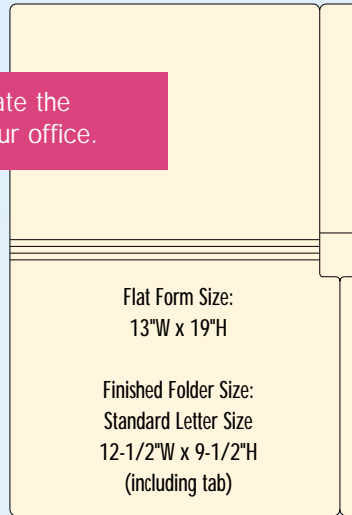

Print names, addresses, account numbers, or any text on the tab for quick identification.

Print color coded year codes or color bands that mark specific types of files.

Print company logos or full color images anywhere on the body of the folder.

Your ColorBar® dealer will help you create the design template that works best for your office.

ClickFile™ Software for Windows® gives you the ability to print on the entire outside surface of ColorBar® Printable Folders. You decide what information you need on each folder, and your ColorBar dealer will set up your custom design template and install it into the ClickFile™ application. Then all you need to do is enter the data and click to print.

Printing on ColorBar® Printable Folders is best accomplished with a tabloid-plus ink-jet printer. Shown is Epson 1160. Other Epson models available.

Optional tray support available through Smead.

ColorBar® Printable Folders assemble in seconds to create a ready-to-use file.

Remove and discard perforated excess.

Peel off both tape backing strips.

Fold on score lines to complete indexed tab.

Fold on score lines to create reinforced panel.

ClickFile™ Software gives small offices and clinics the advantages of color coded shelf filing without the labor and cost of using labels. Plus, the ability to print on the entire folder gives you the opportunity to make your file folders more useful with printed forms, bar codes, and images.
